

COOPERATIVE GOALS AND OBJECTIVES

The goal of the Southeast Area Cooperative is to help provide equal educational opportunity for all students in member school districts.

Six objectives that contribute to the achievement of this goal are the following:

1. To ensure that member school districts have equal access to all services provided by the cooperative.
2. To ensure that appropriate educational services, regardless of school district affiliation, will be provided all students.
3. To ensure that educational services which school districts would not be able to provide as effectively or as economically acting alone, will be provided.
4. To ensure that each member school district is afforded participation in the development of educational services by the cooperative.
5. To ensure maximum efficiency in the allocation of material resources.
6. To ensure maximum efficiency in the allocation of human resources.
